**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Applicant's Representative, Monique Vander Molen, on April 9, 2009.

2. The application has been amended as follows:

Claims 28-33 have been canceled.

*End of Amendment*

### **REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance: None of the prior art references, singly or combined, teaches or suggests a synthetic microsphere having the specific diameter and composition as claimed. The Beck patent (US 3,365,315) teaches a method of making glass bubbles formed from melting conventional glass particles. The ingredients as listed at col. 4 and claim 3 of the Beck patent are various commercial glass particles that are suitable as the starting glass particles (i.e. solid particles) to make glass bubbles. In addition, the percentages as listed in the Beck patent are not percentages of ingredients of a particular glass particle, but rather a collection of ranges of ingredients conventionally used in various commercial glass particles. Therefore, it does not anticipate the claimed invention, and it would not have been obvious to arrive at the specific composition of the microsphere as claimed.

4. The Terminal Disclaimer is no longer necessary because the conflicting application 10/648,009 is currently pending in view of the RCE filing on that application. The subject matter of the present application, synthetic microspheres comprising aluminosilicate, is deemed a base invention, whereas the subject matter of the conflicting application, a building material comprising the microspheres claimed in the present application, is an improvement over the base invention. MPEP 804 I.B.1.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. (Holly) T. Le whose telephone number is 571-272-1511. The examiner can normally be reached on 12:30 a.m. to 9:00 p.m. (EST), Mondays to Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rena Dye can be reached on 571-272-3186. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
